

Contents Volume 131, 2000

ExpresSed

- Palaeoclimatic significance of co-occurring wind- and water-induced sedimentary structures in the last-interglacial coastal deposits from Bermuda and the Bahamas
P. Kindler and A. Strasser 1

Research Papers

- Provenance of sandstones from the Lower Cretaceous Sasayama Group, Inner Zone of Southwest Japan
D. K. Asiedu, S. Suzuki and T. Shibata 9
- Sand dynamics at the mouth of a rock-bound, tide-dominated estuary
D. M. FitzGerald, I. V. Buynevich, M. S. Fenster and P. A. McKinlay 25
- Non-tropical carbonates related to rocky submarine cliffs (Miocene, Almería, southern Spain)
C. Betzler, J. M. Martín and J. C. Braga 51
- Constraints on the timing of systems tract development with respect to sixth-order (41 ka) sea-level changes: an example from the Pleistocene Omma Formation, Sea of Japan
A. Kitamura, H. Matsui and M. Oda 67
- Early diagenetic pyrite morphology in a mudstone-dominated succession: the Lower Jurassic Cleveland Ironstone Formation, eastern England
K. G. Taylor and J. H. S. Macquaker 77
- Neodymium isotopic profiling of carbonate platform strata: correlation between siliciclastic provenance signature and sequence stratigraphy
S. N. Ehrenberg, T. A. Svåná, B. A. Paterson and E. W. Mearns 87

Preface

- Palaeofluid flow and diagenesis during basin evolution
T. Bechstaedt and P. Muecher v

Dolomitization

- Stabilization of early-formed dolomite: a tale of divergence from two Mississippian dolomites
I. S. Al-Aasm and J. J. Packard 97
- Correlating paleomagnetic, geochemical and petrographic evidence to date diagenetic and fluid flow events in the Mississippian Turner Valley Formation, Moose Field, Alberta, Canada
M. T. Cioppa, I. S. Al-Aasm, D. T. A. Symons, M. T. Lewchuk and K. P. Gillen 109
- Formation of dolomite mottling in Middle Triassic ramp carbonates (Southern Hungary)
Á. Török 131

Fluid migration

- Relationship between fluid flow and faulting in the Alpine realm (Austria, Germany, Italy)
P. Kappler and S. Zeeh 147
- Evolution of metamorphic fluids at the Variscan fold-and-thrust belt in eastern Belgium
K. Schroyen and Ph. Muecher 163

Fluid flow after compressional deformation

Hydrothermal dolomites in SW Sardinia (Italy): evidence for a widespread late-Variscan fluid flow event M. Boni, G. Parente, T. Bechstädt, B. De Vivo and A. Iannace	181
Geochemical study of calcite veins in the Silurian and Devonian of the Barrandian Basin (Czech Republic): evidence for widespread post-Variscan fluid flow in the central part of the Bohemian Massif V. Suchy, W. Heijlen, I. Sykorova, Ph. Muchez, P. Dobes, J. Hladikova, I. Jackova, J. Safanda and A. Zeman ...	201
Author Index Volume 131	221
